## Montague Island

### Narooma

The Montague Island Tour has been a finalist for the National Tourism awards for two years and is a must for anyone visiting the area. Montague Island is well known for its colony of Little Penguins. These birds return to their burrows each evening after a busy time fishing in the waters in and around the Island. This nightly migration can be viewed on the evening tour to the Island.

Montague Island located just 5 nautical miles off the coast from Narooma is one of diving's most diverse and best kept secrets. The island's unique location offers dozens of dive locations and the advantage of dives in almost any weather conditions. Because of its position it can offer different dives at different times of the year. For example during the cooler months you can experience the sheer exhilaration of playing with up to 1600 very friendly, very agile, very playful Fur seals. Or maybe witness one of nature's brilliant Humpback whales or the spectacle of a pod of dolphins or Orcas.

One of the best attractions on the South Coast is a Tour to Montague Island Nature Reserve. Relax aboard one of our vessels and enjoy your twenty minute voyage to Montague's resident Seal Colony. Along the way you may encounter pods of migrating Whales (Sept to Nov), vast schools of friendly Dolphins, basking Sunfish, Manta Rays, or acres of pelagic fish.

In the company of your National Parks & Wildlife Service Tour Guide you will land on the Island to observe the resident wildlife and explore the magnificent Heritage Buildings where tea and coffee is served.

Please contact the friendly CDA Shop Crew for current trip dates & prices or check out our [calendar](#).
