Ningaloo

Western Australia

The warm waters of Ningaloo Marine Park are home to the largest fish in the world, the Whale Shark as well as an utter abundance of marine life including soft and hard corals, manta rays, sea snakes, whales, turtles, sharks and over 500 species of tropical fish.

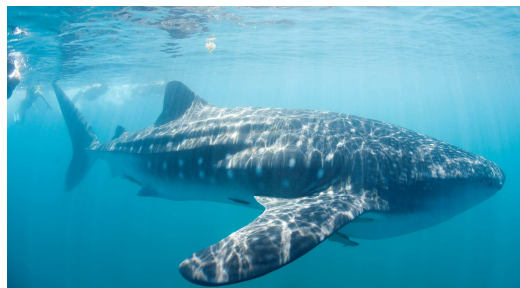

Ningaloo Reef is Australia's largest fringing coral reef, and runs 260km along the length of the North West Cape. Best access to this beautiful part of Australia's Coral Coast from Exmouth in the north and Coral Bay in the south of the North West Cape.
