

TDI Cavern Diver

As the first in a series of overhead courses, the TDI Cavern Course takes a serious look at the skills needed to conduct safe and enjoyable cavern dives. Although the cavern course is conducted in the light zone you will still be in an overhead environment.

STUDENT PRE-REQUISITES

- Minimum age of 15 (with parental consent)
- Minimum of 25 logged dives and certification Advanced Diver

REQUIRED COURSE MINIMUMS

- Classroom / Briefing Hours - 6
- 4 Cavern Dives with a total of 80 hours logged time at two different dive sites

YOU WILL LEARN

- How to properly deploy a guideline, how to properly follow a guideline, how to touch contact communicate & how to correctly deploy directional markers

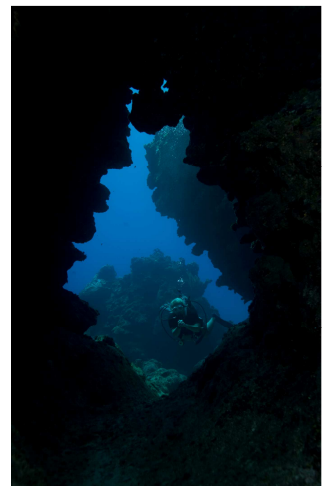

REQUIRED EQUIPMENT

1 Primary cylinder-volume appropriate for planned dive and student gas consumption. Students are permitted to use double cylinders, but would be limited to the 1/6 air rule. **2** Regulator with pressure gauge and alternate air source. It is suggested one regulator be mounted on a hose approximately two meters of length. **3** Buoyancy Compensator with power inflator. **4** Exposure suit adequate for cavern environment. **5** Mask and fins - NO snorkel. **6** Line cutting device. **7** Safety reel with a minimum of thirty meters of guideline. **8** One primary cavern-diving reel with length appropriate for intended dive. **9** Two battery powered lights, each with burn time suitable for the planned dive time. **10** Computer or watch (bottom timer) and depth gauge. **11**. Slate or wet notes and pencil. **12**. Submersible dive tables or backup dive computer (recommended) **13**. 3 directional line arrows. **14**. Weight system

QUALIFICATIONS OF GRADUATES

Upon successful completion of this course, graduates are qualified to enroll in:

- TDI Intro to Cave Diving Course

"So much ocean, So little time"
