

## TDI Full Cave Diver

This course is the third (3rd) stage of training in the series of TDI's cave diver development programs. Advanced cave dive planning, the practical execution of different types of cave systems and scenarios divers encounter are presented. This cave diving course is not intended to prepare divers for evaluating all facets of cave diving. The objective of this course is to expand and critique previous skills accomplished in the Cavern and Introductory Cave diving programs. Emphasis is placed upon dive planning and skill perfection through actual cave penetration.

### STUDENT PRE-REQUISITES

- Minimum age of 18
- TDI Intro to cave diver certification

### REQUIRED COURSE MINIMUMS

- The number of classroom and briefing hours is six (6).
- Course must be taught in no less than four (4) days.
- If combined with Cavern and Intro to Cave diving, course must be 7 days long.

### YOU WILL LEARN

- How to properly deploy a guideline, how to properly follow a guideline, Use of safety reel in lost diver procedures & use of safety reel in lost line drill.

### REQUIRED EQUIPMENT

- All the same equipment in the cavern diver course
- Plus an extra independent first and second stage regulators.
- Three battery powered lights – one primary and two back-ups, each with a with burn time suitable for the planned dive time.
- One primary cave-diving reel with length appropriate for intended dive.
- One (1) non- directional line marker.
- Gap reel with fifteen meters of guideline.

### QUALIFICATIONS OF GRADUATES

Upon successful completion of this course, graduates may engage in cave diving activities without direct supervision so long as cave standards are adhered to.
